

## **“Learn Through Play”**

Play competitively and learn from results. Whether playing at the local club or traveling to a Sectional or Regional tournament, learning through competing is an excellent way to improve your game (and have your ego bruised...). Feedback (on at least 3-4 significant hands) provided after each session.

Local club game: \$200 per session.

Tournament rates vary, depending upon travel and living costs, level of competition, and results achieved.

### A Typical Day at Your Club:

30 minutes before game time:

Meet; discuss convention card and other understandings

Game:

Play and compete; between rounds, discuss any situations that arise during play that were not covered pre-game.

Following the Game (30-45 minutes):

Re-convene; review general results, and discuss 3-4 hands that contain valuable lessons.

Make any revisions to Convention Card prior to next session...
